Note: Sega Worldwide Soccer™ '97 is for one to four players.

2. Place the Sega Worldwide Soccer '97 disc, label side up, in the well of the CD tray and close the lid.

3. Turn on the TV or monitor and the Sega Saturn. The Sega Saturn logo appears on screen. If nothing appears, turn the system off and make sure it is set up correctly before turning it on again.

For a greater challenge, set the Marker option to Manual. Press Button R to move the Player Marker to the next closest player to the ball.

**Free Kick**

The fouled player is awarded a Free Kick only.

**Yellow Card**

The offending player is warned. If the same player receives another Yellow Card he is dismissed from the game and can not be replaced.

**Red Card**

# Mastering the Moves

Use this section as a reference when trying out the player moves. After you practice a few of the moves you'll be able to build a deadly arsenal of kicks and other maneuvers guaranteed to send your opponent reeling!

## Kicks

**Press:**

**Button A** for the long shot

**Button A** twice quickly for  
the grounder

## Pass

The pass travels on the ground a short distance.

**Press the D-Pad** to set the direction,  
then **Button B** for the pass.

## Lob

Send a high, slow shot in the direction of your choosing. It won't travel as far as when you clear the ball, but you can direct this kick.

**Press the D-Pad** to set the direction,  
then **Button C**.

## Chip Kick

Send the ball just over the head of a surprised defender to land at the feet of your teammate.

Press the D-Pad to set the direction, then Button C twice quickly.

## Clearing

This is a helpful kick when you need to get the ball upfield in a hurry.

You can not direct the ball but it will travel a good distance. This kick is also useful for getting the ball out of dangerous places quickly (i.e., in front of your own goal).

Press Button A.

## On Defense

## Slide Tackling

Few things are more satisfying than performing a clean tackle and getting the ball back from your opponent. But nothing will get you in more trouble than performing a bad tackle. Perform at your own risk!

Press the D-Pad to set the direction, then Button A.

## Shoulder Charge

Another way to get the ball back is to give your opponent the cold shoulder. You can still get called for rough play but the risk is less. Unfortunately, so is the chance for success. However, all in all it's a useful maneuver.

Press the D-Pad to set the direction, then Button B.

## Keeper

Throughout the match your keeper automatically responds to game action. However you might want to take control of the keeper at times, as your keeper responds faster under manual control.

For manual control of the keeper press Button X when the keeper appears on the game screen. Press the D-Pad to move the keeper.

Whether you use Button X or not, when the keeper holds the ball you have manual control. You can then:

Pass or throw to the nearest teammate by pressing Button B  
Kick long by pressing Button A

**Note:** When the keeper dribbles the ball you perform kicks as you do with other players.

## Defensive Formation

There are three types of defensive formations your team can assume during play. All it takes is a simple press of the button to execute any of the three.

### Pressing

Several of your players crowd the opposing player currently dribbling the ball.

Press Button Y to execute this action.

### Man-to-Man

Each of your players finds an opposing player to guard.

Press Button Y and Z simultaneously for this tactic.

### Offside Trap

Rob your opponent of a drive to your goal with this move.

End result: a Free Kick for you!

Press Button Z to bring your entire defense past the opposing forward line.

## Specialty Moves

### Free Kick

Your team is awarded one of these if your opponent is guilty of fouling or offsides.

Press the D-Pad to set the direction of the kick, then Button A for a long kick or shot on goal or Button B for a short kick.

### Corner Kick

In the event your opponent kicks the ball past his own goal line you are awarded a Corner Kick. Press the D-Pad to set the direction of the kick.

Press:

Button A for a low, fast kick to the opponent's goal area

Button B for a pass to the nearest player

Button C for a lob to the opponent's goal area

### Goal Kick

If one of your opponent's players sends the ball past your goal line, you are awarded a goal kick. Your keeper takes the kick.

Press the D-Pad to set the direction for the ball, then press:

Button B for a short kick to the nearest player

Button C for a long kick upfield

### Run Fast

Make your highlighted player sprint by pressing Button L. This is a great move to use when on the offensive.

## Penalty Kick

If a player is fouled in the opponent's penalty area, the player is awarded a Penalty Kick.

## Taking the Shot

Your chances of making the shot are pretty good, considering the size of the goal. Don't take anything for granted, though. If you always shoot for the same area, you'll become predictable. Vary your shots! You might be able to surprise your

opponent sometimes by not setting a direction with the D-Pad. In this case the ball travels straight forward. If the keeper has jumped to the side all he can do is grab for air!

**Press the D-Pad to direct the kick. Then press Button A for a high kick or Button B for a low kick.**

## Blocking

The odds aren't in your favor, but that doesn't mean you can't block the shot. If your opponent always shoots to the same side you might be able to anticipate the shot and rob him of a goal.

Should you expect a straight shot you need not press anything. The keeper automatically responds to this type of kick.

**Press Button A or B and the D-Pad either LEFT or RIGHT to dive for the ball.**

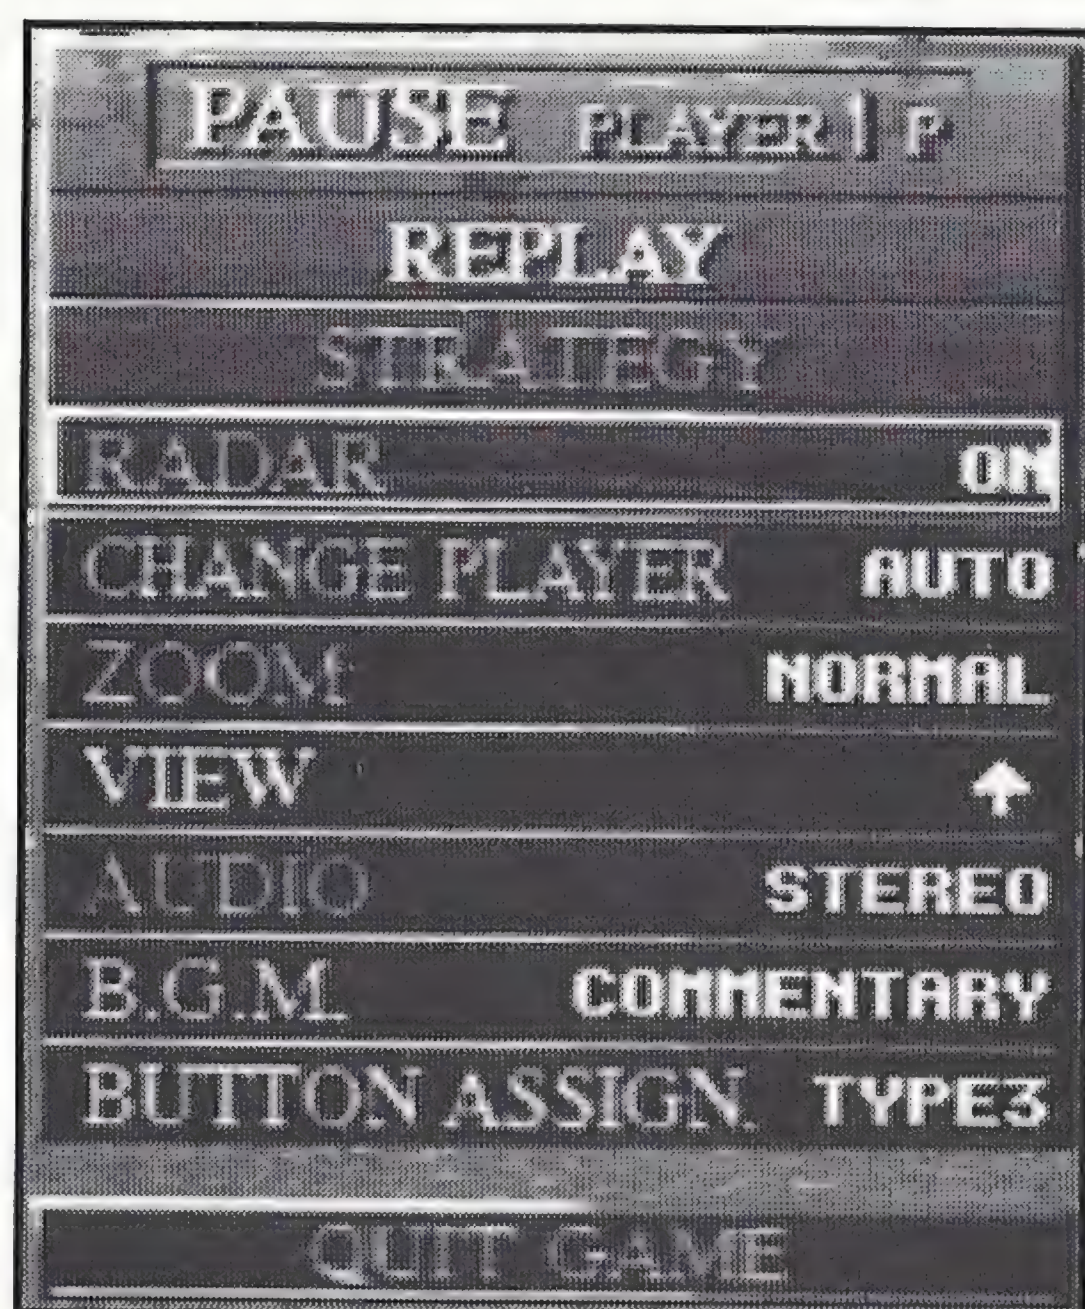

## Throw-in

Bring the ball back into play with the throw-in. Press the D-Pad to set the direction of the throw. Next press Button B for a short throw or Button C for a long one.

## Pause Screen

Press Start during game play to bring up the Pause screen. From this screen you can change game features.

Below is a list of the Pause screen features. Refer to the list to help you make changes. Press the D-Pad UP or DOWN to highlight an option. Refer to pages 6-8 for the Options screen.

- C to have the clip advance a frame

You can also press:

- X to rotate the view of the pitch clockwise
- Z to rotate the view of the pitch counter-clockwise
- L to zoom towards the pitch
- R to zoom away from the pitch

When finished press Start to return to the Pause screen.

## Strategy

Access the Strategy screen (pages 18-20) during the game when the ball is not in play. If you try to access this while the ball is in play the arrows indicate that you need to wait until play is stopped. Access as you did for the Replay option, listed on the previous page.

## Radar

Use the radar to bring up a mini-version of the pitch with player locations displayed. Press the D-Pad LEFT or RIGHT to select ON to have the radar displayed or OFF not to have it displayed. This feature is especially useful when first learning how to play the game.

## Change Player

With this feature you can select to have the Player Marker change manually or automatically. Refer to the Marker option on the Options screen.

## Zoom, View, Audio, BGM

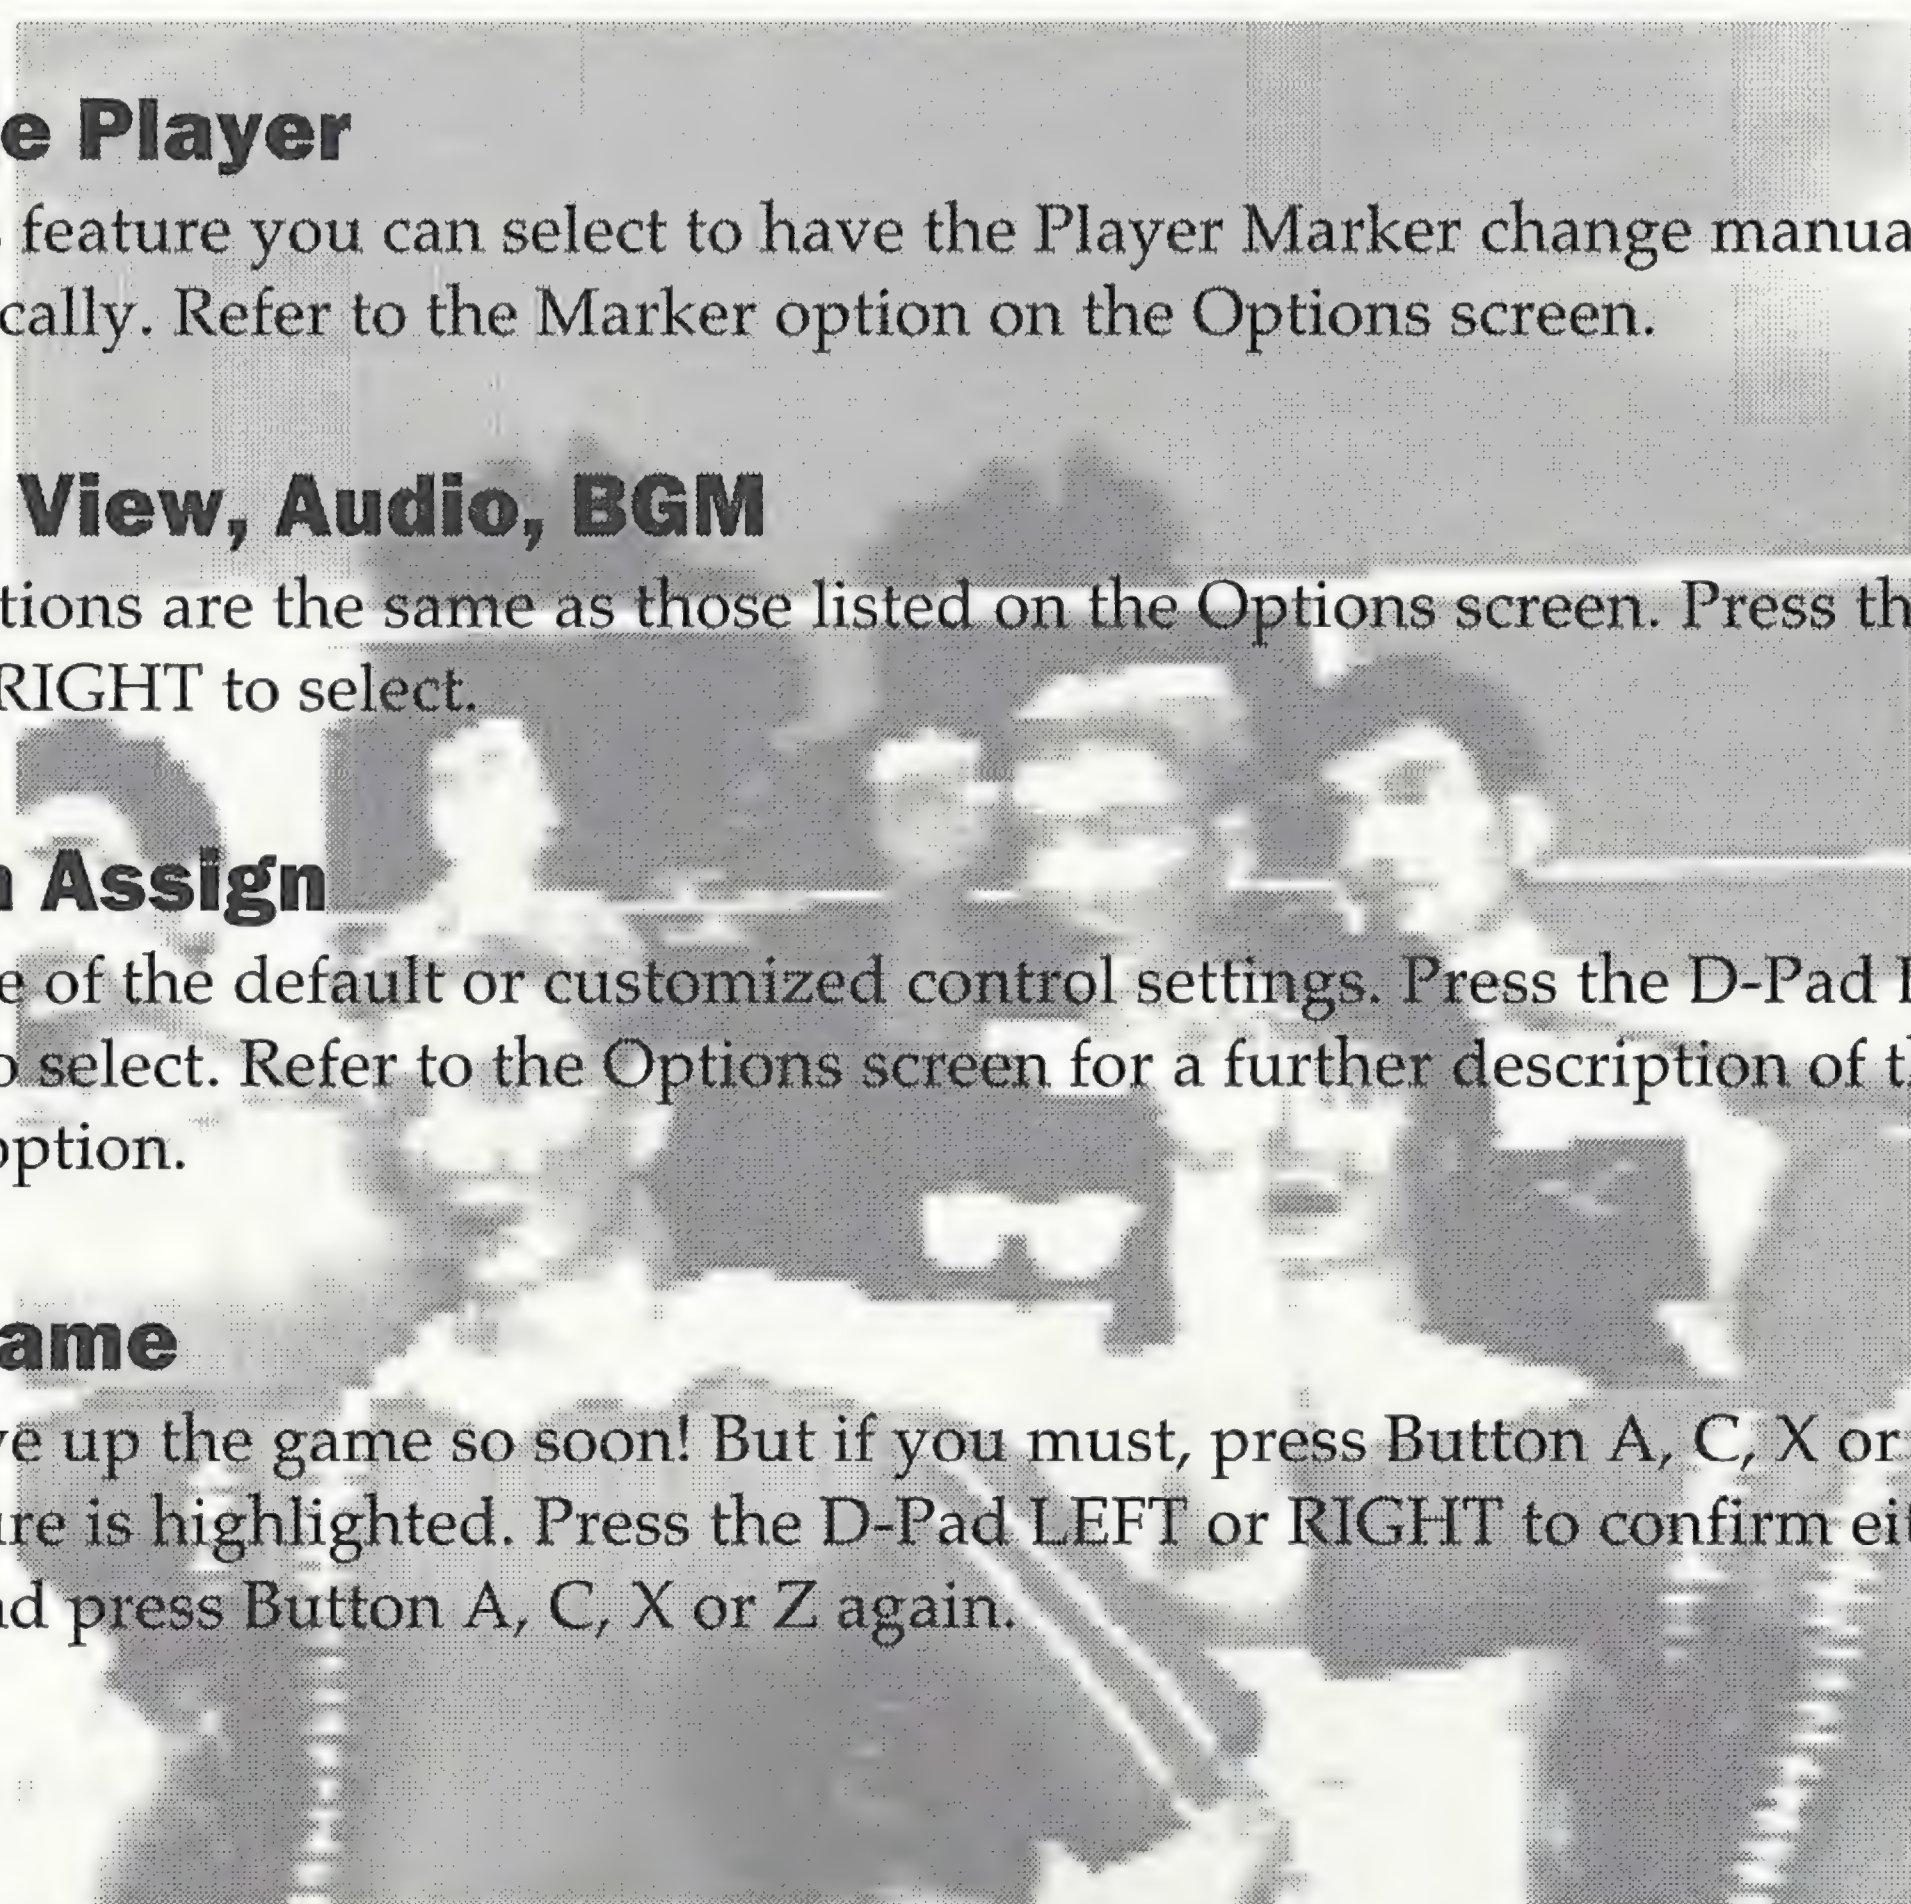

These options are the same as those listed on the Options screen. Press the D-Pad LEFT or RIGHT to select.

## Button Assign

Select one of the default or customized control settings. Press the D-Pad LEFT or RIGHT to select. Refer to the Options screen for a further description of the Pad Control option.

## Quit Game

Don't give up the game so soon! But if you must, press Button A, C, X or Z when this feature is highlighted. Press the D-Pad LEFT or RIGHT to confirm either YES or NO and press Button A, C, X or Z again.
